EDUCATION

Ohio University

Bachelor of Science in Computer Science

Athens, OH

May 2026

PROJECTS

Quorum — Event Scheduler App

UI/UX Lead | Flutter, Dart, Firebase, Figma

Aug 2025 – May 2026

5-person capstone team

- Led all UI/UX design and frontend implementation for a mobile event scheduling application built in Flutter with Firebase backend
- Designed complete user interface in Figma including event creation flows, discovery feeds, and user profiles
- Recognized by professor as the strongest UI/UX design in the class
- Implemented responsive layouts, custom components, and navigation architecture across the full application

SnipBoard — Code Snippet Manager

UI/UX Designer | Qt, C++, SQLite

Fall 2025

5-person team

- Designed the visual identity and color scheme for a cross-platform desktop application for storing and searching code snippets
- Collaborated on UI decisions for search interfaces, tag-based organization, and favorites system
- Application includes a companion VSCode extension for in-editor snippet insertion

Restaurant Finder — Database Project

Full Stack | HTML, CSS, JavaScript, OpenStreetMap API

Fall 2025

- Built a web application to search for restaurants by ZIP code and radius using the OpenStreetMap Overpass API
- Integrated Zippopotamus API for ZIP code geocoding and displayed results with name, address, phone, and website

TECHNICAL SKILLS

Languages: C++, C, Python, Dart, OCaml, SQL, HTML/CSS, JavaScript

Frameworks & Tools: Flutter, Firebase, Qt, Git, Docker, Linux, Figma
